

REMARKS

Very thanks for Examination's suggestion and thanks for finding some citations about the present invention, thereby, the applicant may know more information about the invention. This case has been carefully reviewed and analyzed in view of the office action.

Responsive to the objections and rejections made of the Examiner in office action. We have amended the specification, claims, abstracts and drawing figures. All the errors disclosed in that office action has been corrected according to the Examiner's indications as disclosed in the official action.

Substitute Specification

It is felt that the most expedition way of correcting the specification in accordance with the new claims was the preparation of a substitute specification. The substitute specification is attached hereto and is accompanied by a marked-up copy of the original specification which indicates the changes made thereto by the substitute specification. No "new matter" has been added to the original disclosure by the substitute specification. Entry of the substitute specification is respectfully requested.

Drawings

The figure numbers of the drawings have been amended in accordance with the substitute specification. The detail of amendment as following:

Deleted figure numbers:

first noise eliminating tube 30, inner tube 300, Glass fibers 321, front isolating tube 322, rear isolating tube 323, distal tube 33, flowing section 34, second noise eliminating tube 40, inner tube 400, distal tube 43, Glass fibers 421

Replacement figure numbers:

“noise eliminating holes” replace 211, 31, 41 with 213, 214, 225

“stainless steel and cotton structure” replace 212, 311, 411 with 323, 324, 421

“locking seats” replace 221, 401 with 221, 222

replace “front isolating tube 322” with “first isolating plates 321”

replace “rear isolating tube 323” with “second isolating plate 322”

“screw” replace 402 with 223 “nut” replace 403 with 224

“glass fibers” replace 421 with 423

“valve seat” replace 50 with 51

“valve” replace 51 with 510

Added figure numbers:

the first section 211, second section 212, locking seats 222, volume 422, controllable valve 50, first volume A1, second volume A2, three volume A3

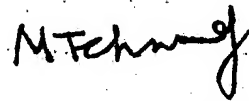

New Claims

According the Examiner's suggestion, I cancel the claims 8-12 and add claim 13.

Summary

It is now believed that the subject Patent Application has been placed in condition for allowance, and such action is respectively requested.

Respectfully submitted.
